PRESS RELEASE

The Board of Directors of Monoposto Racing, North America's premiere vintage open wheel racing organization, announced today that it has approved the inclusion of Formula Fords with manufacture dates from 1973-1981 (usually referred to as Club Fords) for races run under Monoposto regulations. These cars will be classed as "FF70" racecars and will run in the F70 (wings and slicks) group. Eligibility is effective upon promulgation of an interim rules package expected in March of this year.

Bob Goeldner, Monoposto Racing president, stated "We were approached by members of the Formula Ford community last year to sound us out on the possibility of Club Fords being included in our ranks. These racers like the strong emphasis on originality, presentation and driver conduct that characterizes our organization. We polled our members and they voted by a wide margin to open our ranks to these fellow open wheel racers".

Monoposto Racing has named it's vice president, Dan Schmutte, to serve as the class representative for these new members for 2004. Dan will oversee development of the rules package, act as a point of contact for drivers and race organizers and monitor rules compliance and driver conduct. Dan can be reached at creekboy80@aol.com.
