

2023 VARAC Drivers Challenge

Points from the best 5 eligible championship events for each division will be accumulated to provide up to three annual championship awards in each VARAC class as well as one overall Vintage-Historic champion, one overall Classic (G70+, G90), one overall Modern Classic champion, one Formula Classic champion, and one overall Club Champion.

3 races (Sat aft, Sun AM & Sun aft) will be scored and count toward the Championship (vs Sat aft & Sun aft previously).

Only drivers who have submitted a VARAC Car Eligibility Form will be eligible to accumulate points, and only driver-car combinations that have completed a minimum of three events will be eligible for the end of season championship awards. Points will be awarded to drivers in each class that they participate in rather than to teams or cars.

Competitors who have not submitted a VARAC Car Eligibility Form at the time of the event will not receive championship points for that event. Competitors have an opportunity to submit their form before the next event to have points re-calculated for the previous one event. (Prior events to the last event will not be re-calculated.)

VARAC Vintage Grand Prix volunteers who cannot participate at the VGP event may choose another event on the North American schedule to replace the VGP event and need to notify the Vice President of their Division prior to the VGP event.

Formula Classic drivers and cars will be classified based on the vehicle classes listed below. The time bracket-based classes are not being used by the Formula Classic Division.

All VH, Classic & Modern Classic competitors shall self-designate their class before their first event of the season based on the time bracket charts set out below and their bracket from previous seasons. Generally, a competitor must stay in the bracket in which they finished the last season. A competitor may request reclassification to a different class (slower or faster) by applying to the Vice President for their Division. The Vice President's decision on the classification will be final. The Division Vice Presidents have the right to re-assign competitor classes if they deem it appropriate.

A "Break Out" occurs when a driver, in a Qualifying or Race session, turns a faster time than the upper limit for a class. Break Outs are recorded at championship events, except the VARAC Vintage Grand Prix. At the VVGP break outs will not be applied until the last race group race (the trophy race).

When a Break Out is recorded in all events ex the VVGP the competitor will **automatically be moved to the new class** for that session and all remaining sessions at that event. There will no longer be any added lap penalties or change of position on the next grid. Points will be awarded based on the competitor's finishing position in the "new" class. At the VVGP break outs will not be recorded until the last group race. Competitors that break out in this last session will be moved to the new class at that point.

In the event of a tie in the scoring, a 6th event will be added in, and then the 7th etc up to maximum events per class, if necessary to break the tie. If a tie remains a coin toss will be used to make the final determination.

Questions or concerns? Please contact the VH, Classic/Modern Classic, or Formula Classic Directors for clarification.

2022 TIME BRACKETS: Vintage Historic and Classic

	CTMP	SMP - Pro	SMP - Long	CMP - East	CMP - Long	Le Circuit
B	Under 1.27	Note: B	Group	Applies to	CL & Modern CL
